

S.NO	Date	Title	Mark	Sign.
1)	22/1/25	Time series data cleaning, loading and processing.	10	9
2)	5/2/25	Implement programs for visualizing time series data.	10	9
3)	12/2/25	Implement programs to check stationarity of time series data.	10	9
5)	5/3/25	Develop a linear regression model for forecasting time series data.	10	9
6)	5/3/25	Implement program to apply moving average smoothing for data preparation and time series forecasting.	10	9
7)	5/3/25	Decomposing time series data.	10	9
4)	26/3/25	Implement programs for estimating trends in time series	10	9
8)	26/3/25	ARIMA model for time series forecasting.	10	9
9)	23/4/25	Neural Network - Based time series forecasting model.	10	9
10)	23/4/25	Vector autoregression (VAR) model for multivariate time series.	10	9
